1. TITLE OF THE PROJECT PROPOSAL

Cyber management system

2. PROBLEM DOMAIN & MOTIVATIONS

At present, we are doing our work at online. For a group, company, organization etc. a database is needed to store their client's information. So, I think this project will be helpful for them.

3. OBJECTIVES/AIMS

- Not to save our information in papers which can be damaged
- To save client's information in modern technology, so that we can entry, delete, edit, find any information easily.
- To make our job easier.

4. TOOLS & TECHNOLOGIES

- Language: C
- Software: Code::Blocks
- Compiler: GCC

5. CONCLUSION

In this project, we will be able store user's information using file handling which will works as a database in C.
